RE: Milford Street Closure
DATE: April 7, 2015

I would like you to publish a notice in the paper regarding the closure of Milford Street. Starting the week of April 13th there will be street closings from the area of Grey Fox Run to River Road.

The Street Department will be working on installing new storm sewer pipe, reconstructing the street, and doing some ditch work. This work could continue for two to three months. The street will be closed to all vehicle traffic during this time. Due to the many safety hazards in this area, we are asking people to find alternate routes for this time period. Please see the designated detour route.

If you have any questions regarding this work, please contact the Street Department at 920-262-4080.

Sincerely,

Richard Schultz
